Get it together. These are three words that are so compact. Yet, they express the prominent necessity at this school. The need for unity in all forms of school life at Dunkerton High School is urgent for the success of the student body as athletes, as musicians, as participants, as spectators, as students, and above all as people. Success can be achieved solely through a common bond—a bond including pride, honor, determination, and will.

Childhood

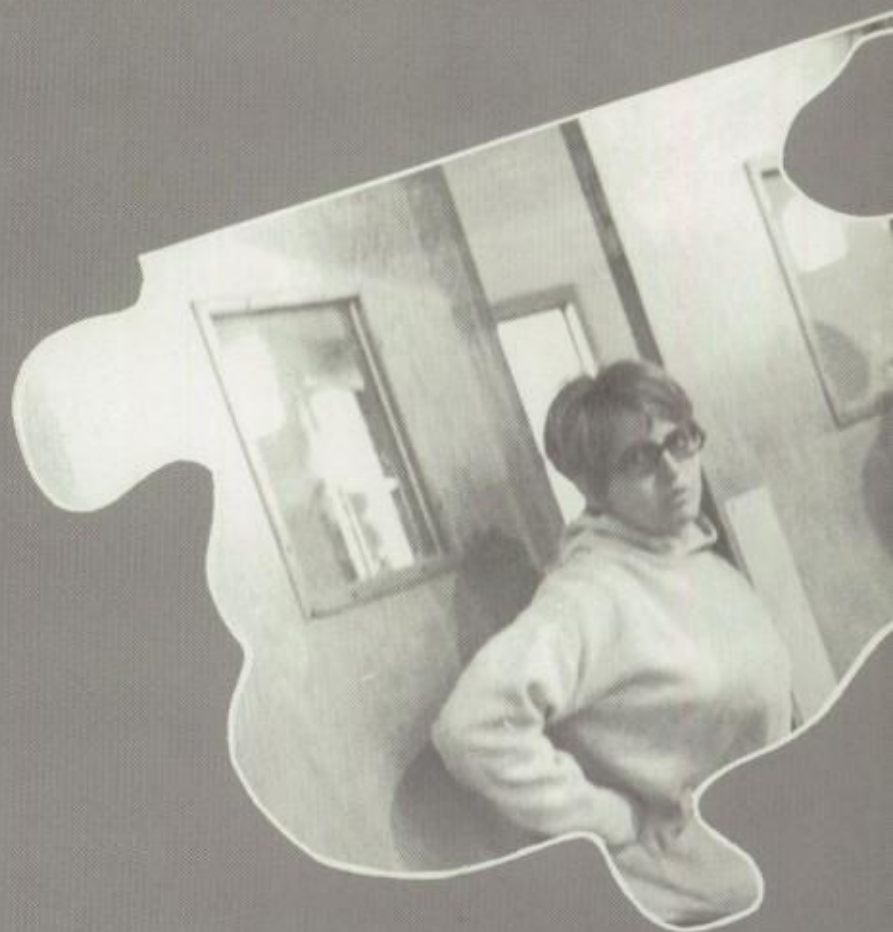

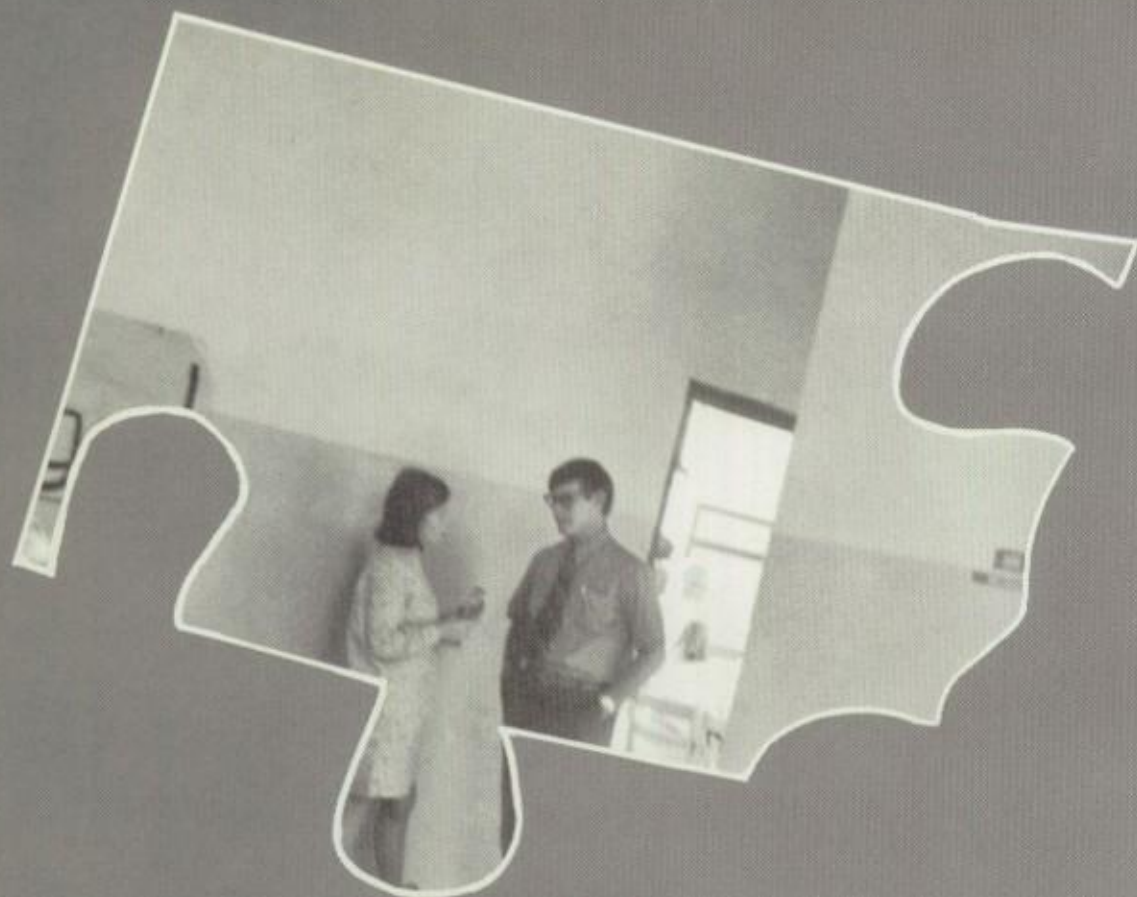

Junior High

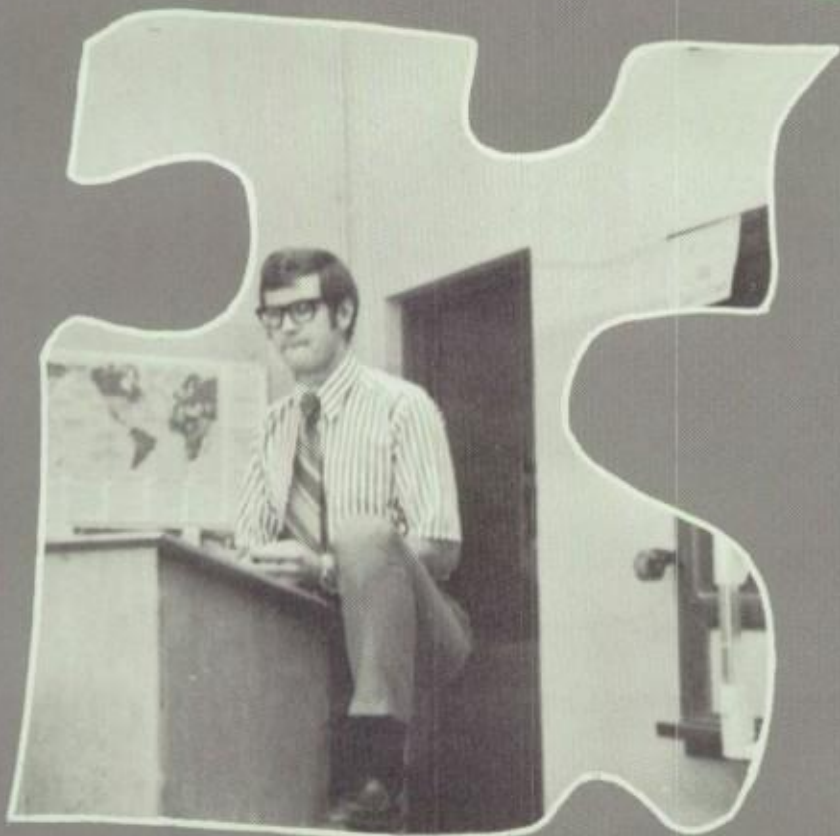

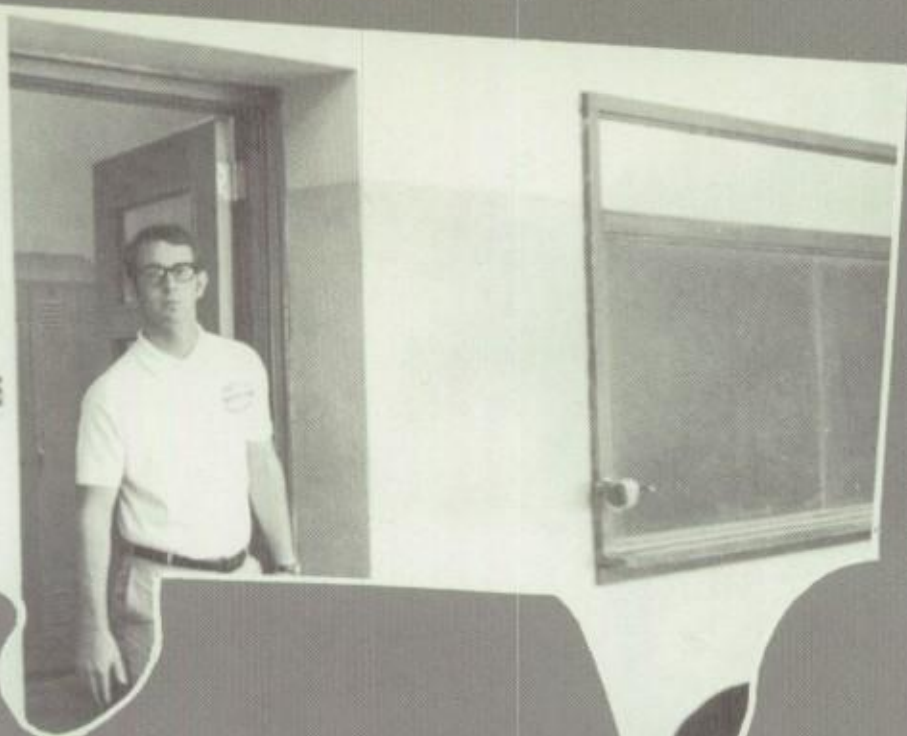

Success and achievement do not come immediately. They must be constructed gradually—bit by bit and piece by piece—through strong determination, ardent dedication, tasteful character, and yes, with that so called square phrase, school spirit. A spirit which should not be confined within the walls of this school. It should reach the outermost boundaries of our community. The vital need for us to GET IT TOGETHER cannot be expressed in words alone. It must perpetuate through action during the 1970-71 school year at Dunkerton High School.

DIRTY WORK AT THE CROSS-ROADS

This Gay Nineties Melodrama tells in a laughable style the tear-jerking story of Nellie Lovelace, an innocent country girl. Munro, the viper, has a wife in, Ida Rhinegold, the belle of the New Haven Music Halls, but that does not prevent him from pursuing the innocent Nellie and tearing her away from the arms of her dying mother (whom, incidentally, he has poisoned). Nor does it prevent him from driving Adam Oakhart, the blacksmith's son, to drink, from blackmailing the rich Mrs. Asterbilt, or from bewitching her daughter Leonie. Old time music frequently interrupted the flowing plot.

Home Ec.

The girls in Home Ec were busy cooking and sewing this year. While the Freshmen girls were enjoying themselves making cupcakes, cakes, and other tasty dishes; the senior and junior girls were hard at work with their sewing.

Shop

The shop was busy this year turning out wood-working and rebuilding cars and other useful objects. A test was given, and those who passed were made Drs. of Motors. The boys also built props for the play and swing show.

Business Education

The business subjects included typing, shorthand, office practice, and bookkeeping. These subjects are offered to prepare students for the future in the business world. Some students will probably become secretaries, stenographers, bookkeepers, or accountants. Others may attend a business college to gain further knowledge in a particular field. By studying and getting everything in the proper perspective while in high school, it is possible for a graduate to attain a worthwhile job in the future.

Despite the girls' record during our 1970-71 season, we were able to floor a very respectable ball team. Being in possibly the toughest girls' conference in Iowa, the Cedar Wapsie, every game you play in is a true test. The girls played well in every game and had nothing to be ashamed of regardless of the outcome of the season. We will lose several talented girls through graduation, but many underclassmen showed promise of making next year an even better year for girls' athletics at Dunkerton High.

Assistant Coach Smith

Dunkerton didn't have a lot to show in end results but a lone trophy, a sign of hope, It was the effort of three games in the South Winneshiek Holiday Tourney which made us burst our buttons (like Mare).

Too many arms and not enough ball.

Jackie, now's not the time to do your push ups.

The umbrella shot with the back door push.

Whoops! Nene—poo!

A little sugar plum fairy bit.

Jackie Wissink got on First Team All-Conference and All-State Honorable Mention in her junior and senior years.

Trick photography is amazing. It can take the ball out of our hands and put it in the opponent's.

There were many laps and many sprints.

This year Dunkerton had its first girls' track squad. We had dual meets with Denver and two with Jesup. We also participated in the Cedar Wapsie Conference meet, the District meet, and the State meet. We had a very successful year, scoring 15 points in the District meet and sending four girls and three events to the State meet in Des Moines. We hope the season was evidence that the girls' track program has potential and that Dunkerton is capable of being state contenders.

Jackie demonstrating her state meet form.

A little more umph!

On your mark, get set, take five.

Prospective 1972 State Cookie Thrower.

What an arm!

Coach Smith showing how not to do it.

A little huddle buttle and the Coach perched on 3rd.

Although we suffered another unsuccessful season with respect to our won and lost record, there are some bright spots in the future. We are hoping that a summer softball program will be introduced which should greatly increase our ability to be competitive during our fall season.

Pose of an 'ol pro.

As the annual goes out, the baseball team is just beginning their season. But we know the squad has potential to do a good job, and we hope they go far.

State Track Meet Girls

Four girls reached state during their first year of track. These four girls took three events to the meet held at Drake in Des Moines. This is an indication that track has possibilities in future years. We hope this proved to the student body as well as to the community that Dunkerton is capable of being state contenders.

Senior, Jo Heiple, was a member of the mile relay which reached state.

Freshman, Suzanne Staebell, was also part of the state relay team. She won the conference record in the broad jump.

Junior, Marilyn Kwolek, qualified for state in the mile relay and the 880 yard run.

Senior, Jackie Wissink, took second place at district with the discus. She was part of the mile relay team which qualified for state. Also, Jackie was conference winner with the discus.

Did the pole fall or didn't it?

The 1971 Dunkerton High School track team was made up of a small group of very hard working boys. They experienced only moderate success; but as a team, they were able to establish seven new school records. The team had nine meets in the conference. They participated in the conference and district meets where they placed in several events. It is hoped that this team will be a base for a strong one in the future.

Now Dean, it was only a ½ lap.

Such shot putting form Mike has.

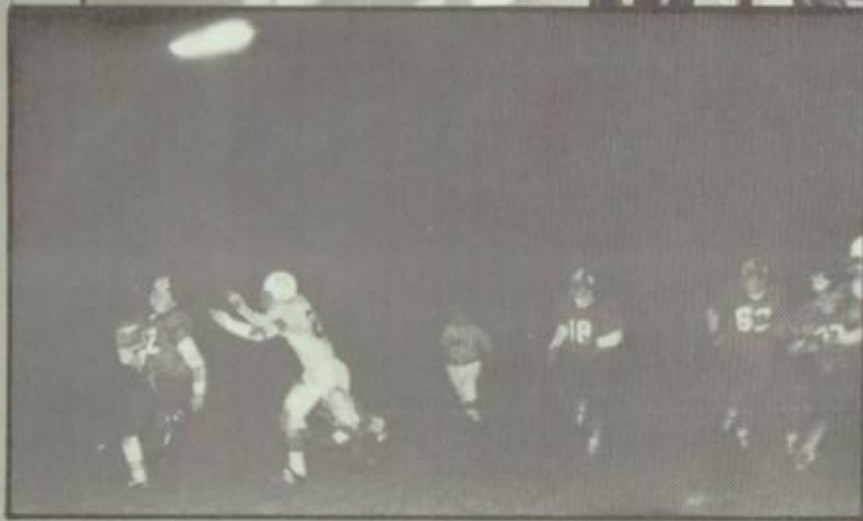

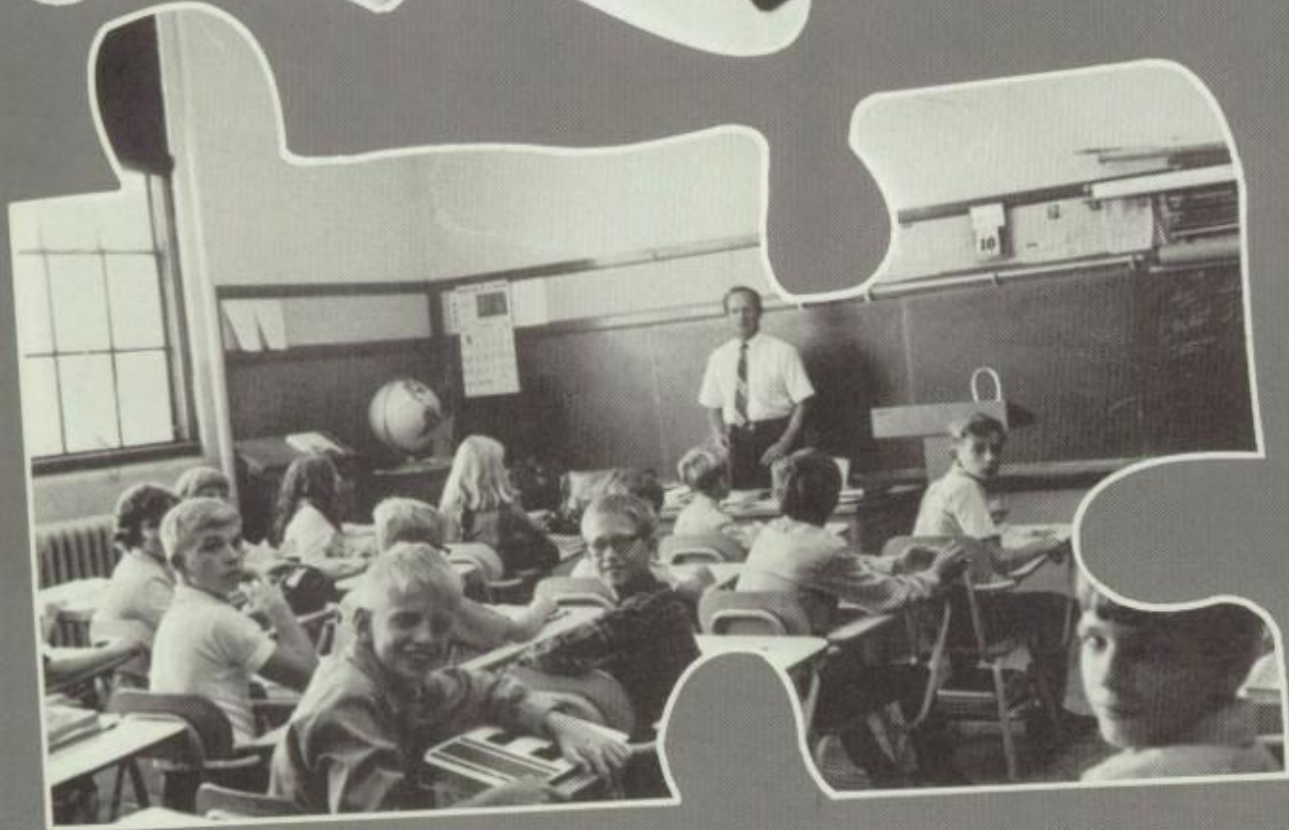

Could it be the boys' jogging team?

Good handoff, but the baton needs to diet.

Elementary Christmas Program

Group of Angels sing "Away in a Manger"

"Rudolph the Red-Nosed Reindeer" and friends

Group of second graders sing "Deck the Halls"

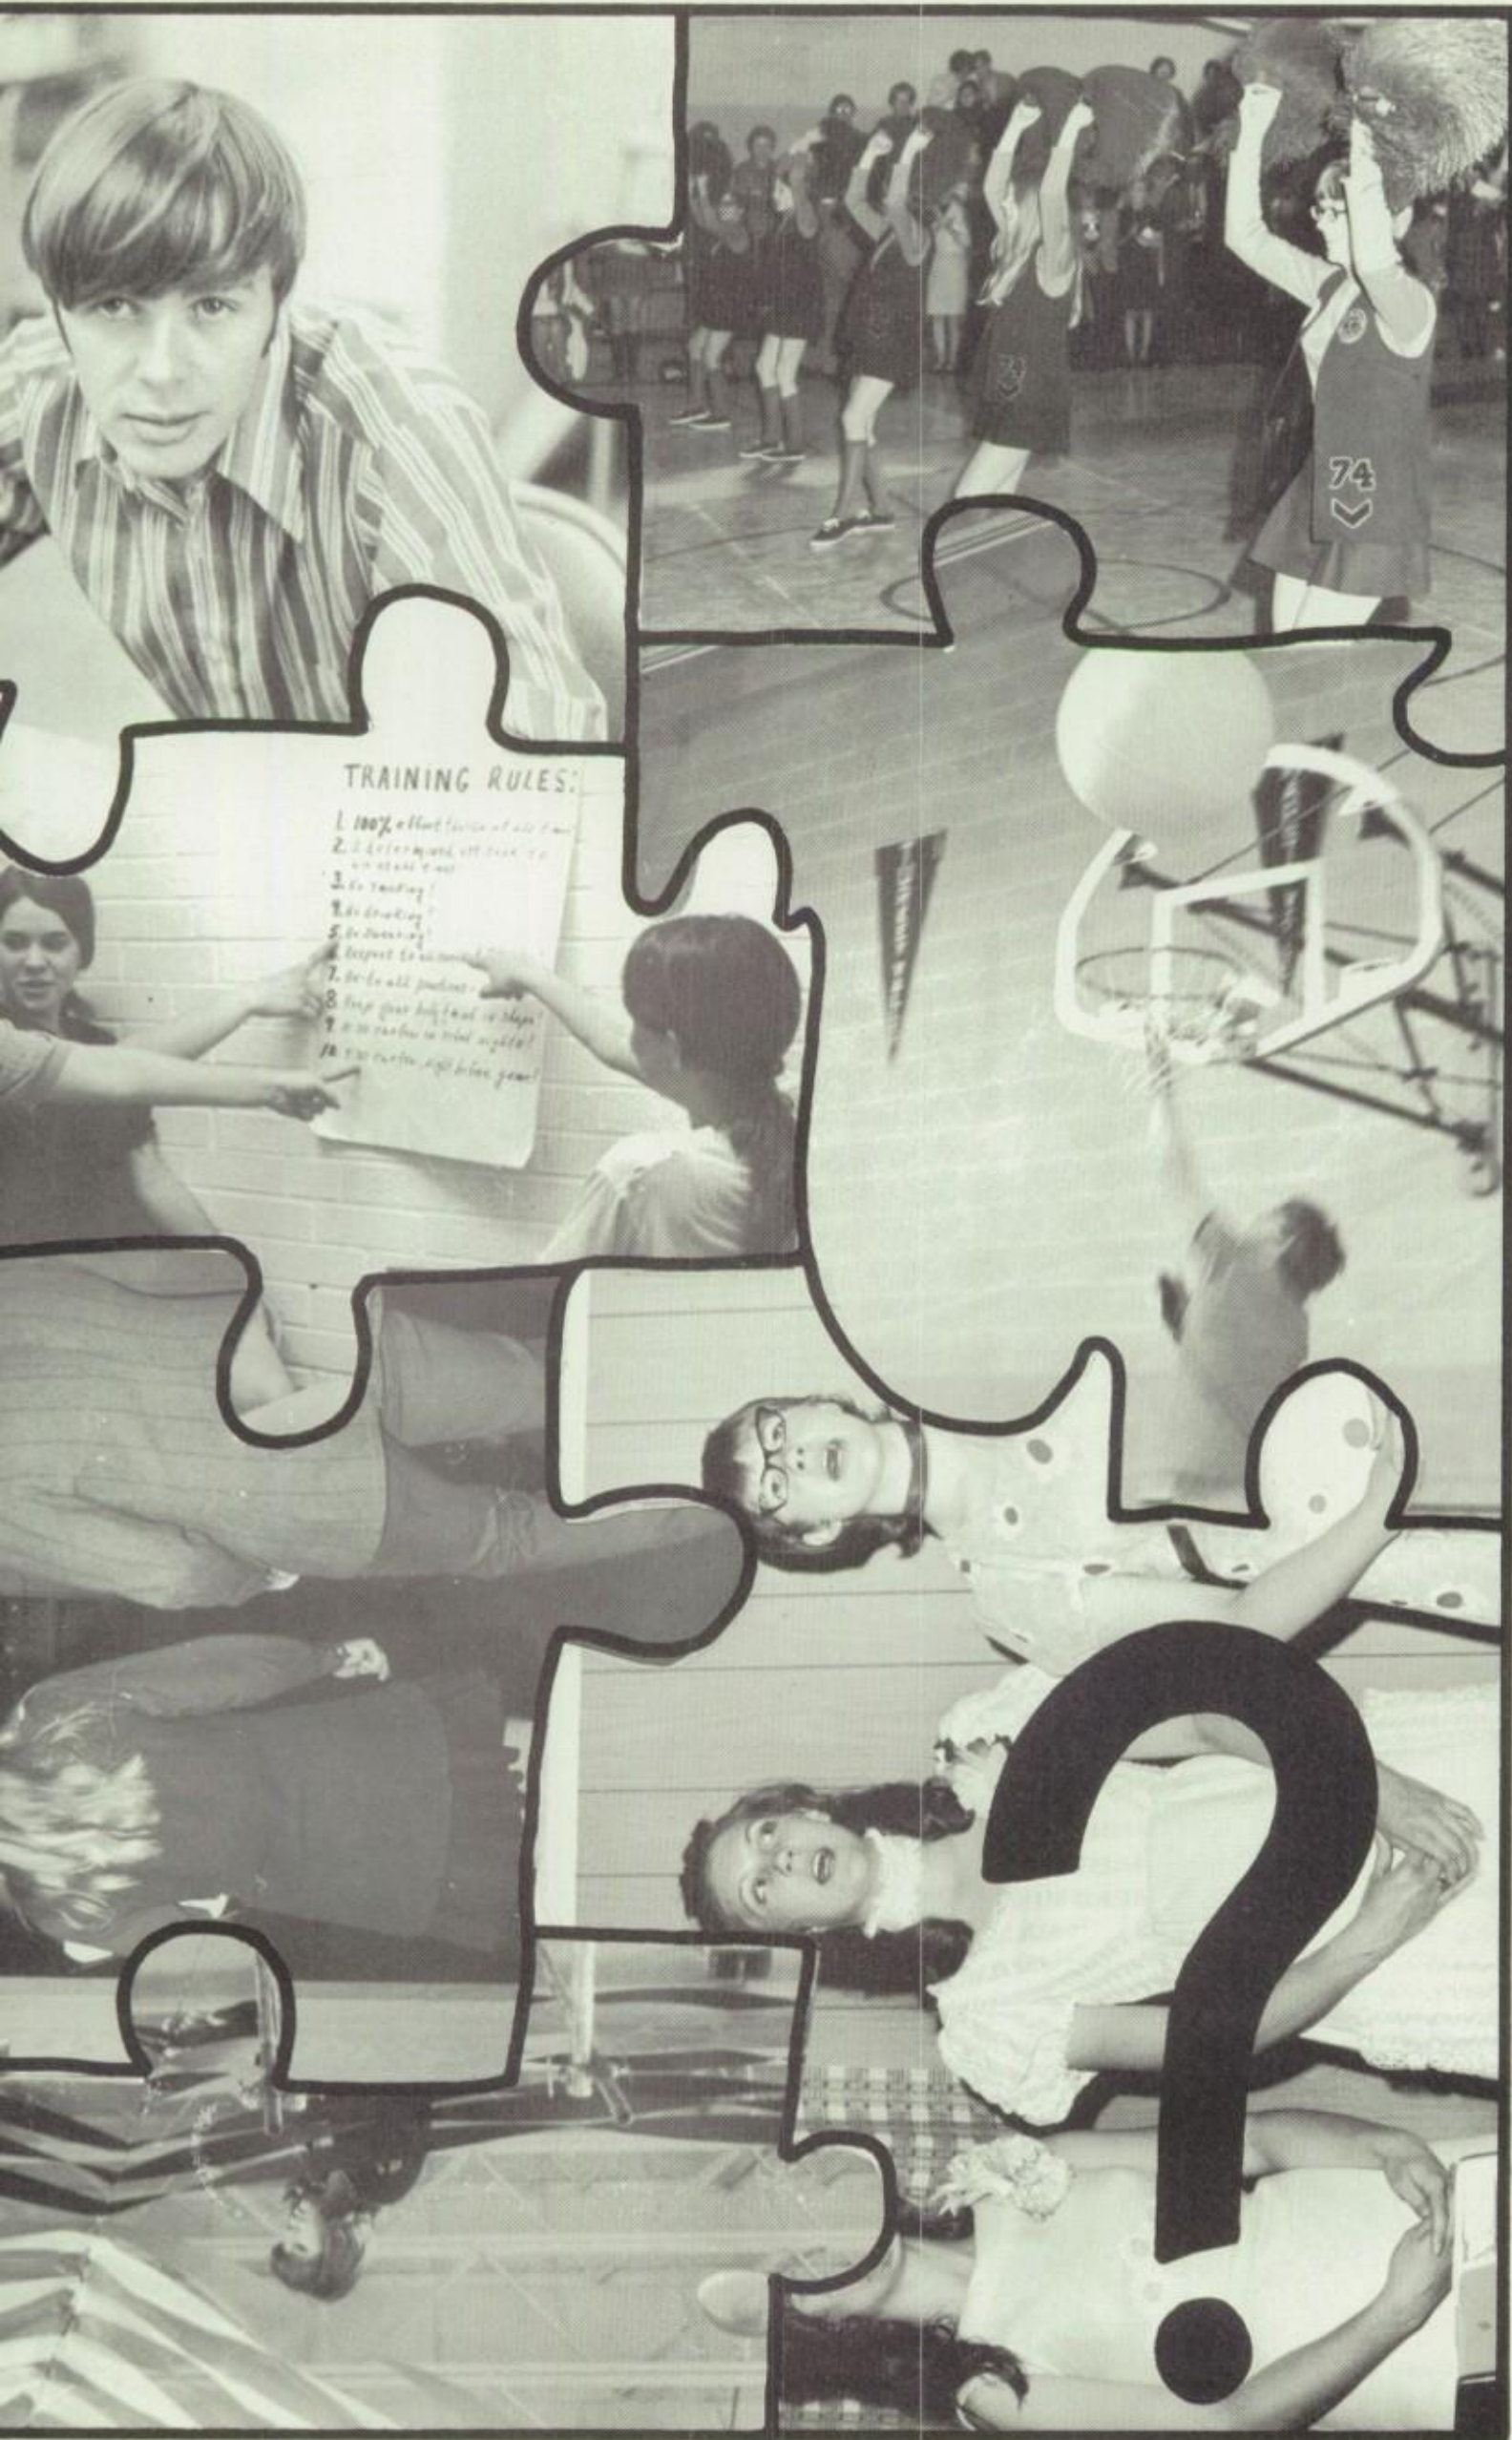

A jack-in-the-box and tin soldiers help brighten up this song.

C-H-R-I-S-T-M-A-S was presented by the Primary Grades on December 9. The children sang Christmas Carols and recited holiday readings.

As our pieces fit together, a hopeful future at Dunkerton High School will take shape. This year we strived to achieve a strong unity between the community, the student body, the faculty, and the administration. Our goal was to pull these wandering pieces of school spirit together, creating a bonding tie with the curriculum; athletics, music, speech, and student life. And within this unity, stimulating individuals to awareness of the goal through determined, "I care" attitudes. And so we pulled and worked and cried and laughed and pulled some more, and the end came. But did we get it together?

The 1971 Raider is completed. The annual staff has put a lot of hard work into this annual in order to give a concise report of the 1970-1971 school year at Dunkerton High School. We would especially like to thank Miss Mathys for all the help she has given us. We "OWEN" a lot to her!
